# BoardConnect Portable NextGen

The new Portable.
Ultralight. Powerful.

About BoardConnect Portable NextGen.

The BoardConnect Portable Mobile Streaming Unit is a powerful wireless streaming platform. The system features two hot-swap batteries and dual Wi-Fi radios for connecting 100 client devices. Up to 14 Terabyte of storage allows almost unlimited content. The removable storage device supports quick updates. Our optimized software platform has been specifically developed to support Docker Applications, making it simple to enhance and enrich your Inflight Entertainment content.

Dimensions (H x W x D)	9.8" (25cm) x 3.5" (9cm) x 12.6" (32cm)
Processor	Intel 2-Core, 1.6GHz/2,1 GHz turbo mode (optional up to 16 Cores)
Memory	8GB RAM (max. 32 GB RAM)
Battery bay	2x Hot-Swappable Li-Ion Batteries, 48 Wh each
Operating voltage	28VDC and 110 -240 VAC @ 50/60 Hz (ext. 110/240VAC power supply required)
Storage	1x 250 GB internal (max. 3 x2 TB), 1x Removable SSD 500GB (max. 8 TB)
Ethernet	1x 1GbE
USB	1x USB 3.0 port
Wireless connectivity	2x2 MU MIMO Wave 2 Access Point,
Cellular modem	LTE Modem (4G) with built-in Antenna
Aircraft interfaces	ADS-B / Data Receiver
Interface	Front Panel OLED display for status information, 4 configurable buttons
Operating system	BoardConnect Enterprise Linux
