Lufthansa Systems launches new Crew Qualification and Training Management Solution

NetLine/Crew Qualification and Training Management provides a view of crew and ground staff training planning and qualifications in one platform.

Raunheim, 29 March 2022 – Lufthansa Systems today announced the launch of NetLine/Crew Qualification and Training Management. The module provides an accurate overview of crew member and ground staff training planning and qualifications on a single platform. NetLine/Crew Qualification and Training Management handles airline employees and their qualification, recurrency and training needs.

“Airlines face the challenge of maintaining valid crew members and ground staff licenses and qualifications. NetLine/Crew Qualification and Training Management’s methodical structure gives an ideal overview. Curricula can be customized to the airline’s need and training records can be accessed easily”, explained Somaya Jouini, Product Owner NetLine/Crew Qualification and Training Management. “Expired trainings are quickly identified so that staff can be trained and retrained in time.”

NetLine/Crew Qualification and Training Management is offered as a web-based solution and with a state-of-the-art user interface. “With the launch of NetLine/Crew Qualification and Training Management, we have taken a big step towards the realignment of NetLine/Crew. We have implemented an intuitive user interface and used the latest software architecture. Our airline customers benefit from the high-speed-implementation and continuous delivery of newly developed functions to maintain training and qualification of their crews”, added Philipp Kemmer, Head of Product Development NetLine/Crew.

NetLine/Crew covers crew management business processes and supports an airline’s crew management team with 24/7 operations support and industry expertise. NetLine/Crew comprises system components for the various crew management domains. This includes the
