Lufthansa Systems: Lido User Group Conference 2022 in Amsterdam

- More than 300 participants and over 80 airlines to experience the latest developments on Lufthansa Systems` Flight Operations Solutions from Sept 21 - 22
- Enhancements of the new flight planning and flight monitoring solution Lido Flight 4D
- Presenting updates on the pilot solutions for charting, briefing and aircraft performance

Raunheim / Amsterdam, 21st September 2022. Lufthansa Systems is welcoming more than 300 participants to the 3rd edition of the Lido User Group Conference (LUG). The airline IT provider is bringing together over 80 airlines from across the globe who use their Lido Flight Operations Solutions. During this year's edition of the LUG the user community returns to a face to face environment in which attendees will learn about the latest developments. Philipp Barzen, Head of Lido & Managing Director of Lufthansa Systems FlightNav, kicks off the event with the opening remarks, followed by highlighting the latest developments of Flight Planning and Pilot Applications. Participants will be able to put together their own individual program by choosing from more than 40 sessions and presentations spread over the two days of the event.

Latest developments unveiled for Lufthansa Systems' Lido Solutions

Being in operation for around 10 months by now, the Lido Flight 4D Integrated Flight Support (IFS) is presented. In particular Lido IFS is showcasing it's advancements in modern graphical user interface, and customers can test the usability using eye tracking technology to validate the workflow. The Lido pilot applications consisting of the Lido briefing application and charting applications are presenting new features. The latest iOS application Lido mPilot can display airline specific layers which customers can manage directly by themselves through their dedicated web interface. Also developments on weather features are presented such as the cold weather calculation feature and new weather layers overlaid on the navigation content to reduce the application congestion.

“The collaboration with our customers is the most valuable asset we have. The Lido User Group Conference brings together our customers from all over the globe and allows them to talk directly to the product responsible. This exchange is of vital importance to align our priorities with the needs of our customers” says Philipp Barzen Head of Lido & Managing Director Lufthansa Systems FlightNav.
