

SIRAX/RA

Grow your business with a future-proof revenue accounting solution that supports NDC and ONE Order. Gain accuracy, reliability, and automation with full coverage of IATA compliance in accordance with IATA regulations and industry standards.

Be part of our SIRAX® community!

SIRAX/RA – the modern and leading passenger revenue accounting standard solution

SIRAX/RA is not only a product; it is a community of 20+ airline customers worldwide with experience in all areas, cooperating to design the future of airline revenue accounting together with the Lufthansa Systems team.

Use the entire suite to reap the full benefits of an all-in-one integrated solution or select specific modules and combine them to the individual needs of your business. With this flexibility, the products can be used for airlines of any size, and for traditional network carriers and low-cost carriers alike. Our consulting experts can offer you both in-depth expertise and extensive training.

Moreover, airlines can benefit from cloud-hosted products and services using our application service provision (ASP) model.
