

ONE Decision. ONE Solution.

SIRAX/ONE Order

Step into the future of financial management.

It takes just ONE decision

SIRAX/ONE Order enables airlines to account, settle and track new flight and non-flight products and services in a seamless way, bringing airlines closer to other retailers. It allows airlines to be agile, to innovate and move from PNRs, e-tickets and EMDs, towards orders and services.

Moreover, **SIRAX/ONE Order** provides simplified finance processes fully in-line with IATA ONE Order and Settlement with Orders (SwO).

It closes the gap and forms the bridge between distribution and financial accounting.

Furthermore, **SIRAX/ONE Order** can easily be integrated with any Order Management System (OMS) based on the IATA industry standard messages for ONE Order.

Main features

The application covers the areas order accounting, settlement and reporting in an **ONE Order** environment:

Benefits of SIRAX/ONE Order

<p>Simplified finance processes fully in-line with IATA ONE Order and Settlement with Orders (SwO) </p>	<p>Real-time data driven decision making (flight + ancillary)</p>	<p>Full control of data Order Accounting Settlement Reporting </p>	<p>Introduce new services in minutes </p>
---	--	---	--

Limitless possibilities with up to 70% less cost! 

SIRAX/ONE Order can easily be integrated with any Order Management System (OMS) based on the IATA industry standard messages for ONE Order:

- IATA_OrderSalesInformationNotifRQ (OSIN)
- IATA_ServiceStatusChangeNotifRQ (SSCN)
- IATA_Acknowledgement

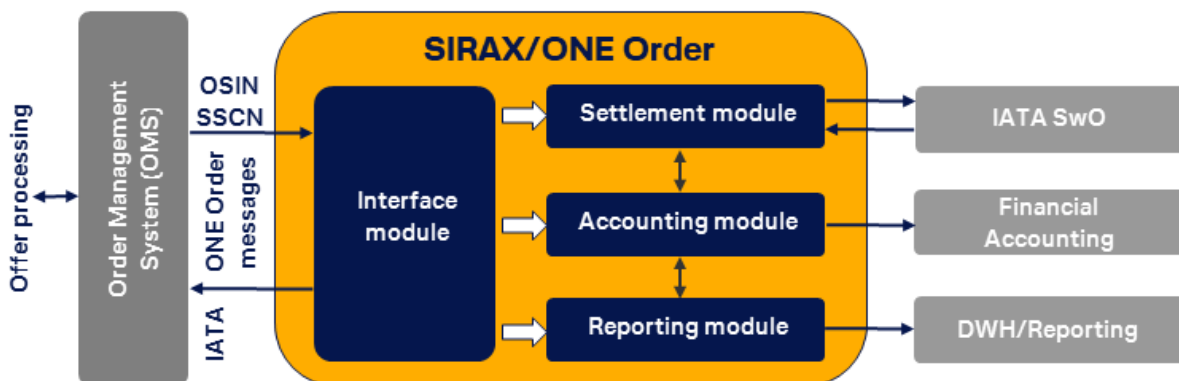

The **reporting module** consists of two areas:

- Integration layer to airline systems (DWH, Revenue Management, ...)
- Visualized online reporting

The settlement module fully supports the new IATA industry standard settlement process **Settlement with Orders (SwO)**.

Moreover, it covers the areas agent, interline and ancillary settlement. The module communicates in both directions with the IATA Clearance Manager. By using lean and highly automated order processes based on the latest technology you can reduce implementation time and maintenance requirements.

Our fully ONE Order capable financial management solution **SIRAX/ONE Order** allows you to realize cost savings of up to 70 percent.

 **Step into the future of financial management. It takes just ONE decision**
